WOMAN IS APPOINTED COUNTY RECORDER

WOMAN HELD IN MURDER PLOT AGAINST MATE

One Gunman Killed by Husband While Deputy Is Wounded in Battle

POLICE TIPPED OFF

Mrs Grace Wood, 39 and Wealthy, Recently Sued for Divorce

DETROIT Jan 10—Mrs Grace [illegible] a society socially prominent [illegible] wealthy in her own right and a University of Michigan graduate was under arrest in the women's detention room at police headquarters here today for questioning in connection with an alleged plot to murder her young husband Ralph A Wood after the plot had been foiled by a spectacular gun battle in the dark in which one of the conspirators a hired gunman was killed by Wood and a deputy sheriff wounded and the one of the gunmen

Mrs Woods mother Dr Mary Smith a physician was also placed under arrest and held as a witness Police declared the mother attempted to escape from her daughters house barefooted and clad only in a night dress when Mrs Wood was arrested

The dead gunman is Ambrose Higgerty 29 of Detroit

Mrs Wood was held despite her insistence that she was being framed

Police knew in advance an attempt was to be made on the life of Wood who at 35 had amassed a fortune estimated at more than a million dollars in real estate operations at Wyandotte fashionable Detroit suburb where Woods office scene of the battle is located Wood too had been tipped off

Looks Like Movie Lot

The scene resembled a movie lot although the conspirators were unaware their coming was awaited by sheriffs deputies and newspaper cameramen lay concealed in Woods office and the spacious grounds surrounding it

Cecil Holt, 25 year old accountant one of the plotters betrayed the conspiracy at his young wifes earnest plea He agreed with authorities, however to carry out his part that he *real conspirators* might be captured

Five persons were in the conspiracy according to Assistant Prosecutor Paul O Buckley One is dead Mrs Wood refused to talk and two others under arrest have confessed Holt who exposed the plot, is not held

Buckley in his recommendation of a warrant said the motive was to collect a $100 000 life insurance policy on which Mrs Wood had recently

London Women Have Toes Amputated To Wear Shoes

LONDON, Jan 10—Startling disclosures that many English society women are going about minus their toes in order to wear *fashionable shoes* have been made here by Dr A L Kennard and aroused much comment today Dr Kennard is one of the foremost bone specialists in London

In an interview, the specialist revealed that scores of smart women are having their little or third toe amputated so that their feet will fit into small, smart toed shoes

But this is only the lesser evil of the craze for chic footwear, according to Dr Kennard He asserts that high heels will result in a generation of crippled women

The foot is rapidly becoming the ugliest part of the modern woman said the doctor The belief that the flat footed woman has passed is a delusion The high heel is merely a splint for the foot giving it a deceptive appearance of shapeliness and prettiness

A variation of this craze at the moment is to have the third toe instead of the smallest one removed I strongly advise women against having anything of the kind done, for they are certain to pay the penalty later on

CHICAGO Women might learn from the lord mayor in London

At the lord mayors dinner a loving cup passes around When you turn your face in the big tankard, and drink spiced wine the man at your left rises and stands behind you That custom comes from days when the man standing was supposed to prevent your being stabbed in the back as you drank

The transfer was made after it was called to the attention of State Auditor Joseph T Tracy that unendorsed checks signed by Riley and totaling $145 had been found among the belongings of Charles F Smith former Marion county recorder who was removed from office today and who is under indictment for embezzlement of $2 910 80 in public funds Smith has been missing since April 20 1928

Cover Period of Year

The checks seven in number ranged in date from Jan 1 1926 to early in the following year All but one of the checks were in Smiths possession when Riley made an examination of the recorders office in October 1926 None of the checks had been presented to a bank for collection

The checks were found in a strong box in Smiths office by I W Jones another state examiner who began an audit of Smiths records shortly after the recorder disappeared last April Information that the checks had been found was revealed by Jones in his testimony at a hearing in common pleas court last month for the removal of Smith

Checks Taken Up

According to Jones' testimony he reported the checks to Peckinpaugh immediately after he found them Peckinpaugh stated in a letter to The Star today that Riley promised to take up the checks Jones testified that Riley later claimed the checks when he presented $145 in cash to Jones This money was deposited to the account of the county recorder according to Jones testimony

According to Peckinpaughs letter Riley explained the matter by saying that he sometimes asked Smith to cash checks for him a few days a

REPUBLICANS MOVE TO SPEED CONGRESS

Administration Hopes To Obtain Treaty Ratification This Week

WASHINGTON Jan 10—Fearful that prolonged debate upon the Kellogg Briand peace treaty may disrupt administration plans for avoiding a special session this spring, Republican leaders today called the senate in to session an hour earlier than usual

Administration spokesmen were hopeful of securing a final vote on ratification of the treaty by Saturday but the irreconcilable group plainly indicated they were ready to debate it for many days to come unless a *compromise agreement is reached* The irreconcilables were holding out for some arrangement by which the United States can inform the world of the terms under which it ratifies the treaty

The necessity for speed in disposing of the treaty became apparent when it was rumored the Coolidge administration intends to press for enactment of farm relief legislation before March 4 If the new McNary Haugen bill should be enacted it was said there would be no need for a special session of congress until next September and the newly installed president can have six months in which to arrange his administration before facing congressional hurdles

Sergeant Claude Wertz at police headquarters is ready for his transitory guests,

Each 'guest' is booked and escorted to the back room The first come first served policy is in vogue The early arrivals are able to obtain the choice locations for the night Those who arrive late are forced to take what is left.

And sometimes there isn't much left. The 'flop' room has only a capacity of 15 to 20 persons but sometimes more than twice that number appear asking for lodging One night a few weeks ago 35 knights were quartered in the room There is an average of 30 to 35 of these more or less unwelcome guests of the city every night in the winter

Many are the stories told by these men

Better days and better times they have all seen, according to their stories But misfortune seems to have befallen all of them at some time or the other

The majority of the guests are according to Wertz the typical "hobo" type However there are some that, apparently are not proud of their profession Shamefaced they march in and ask for a place to sleep

Hoping for Better Days

With the break of dawn the guests make their departure Silently they slip out the back door ready for another day of trooping going nowhere in particular just moving hoping against hope that some day they will get a break and be able to find better quarters than a city flop house

"Pass me a Lucky - I pass up the sweets." Johnny Farrell

Johnny Farrell, National Open Golf Champion, 1928

WHEN fattening sweets tempt and you dread extra weight, light a Lucky instead. No discomfort, no trouble—just a common sense method of retaining a slender figure

The finest tobaccos are skilfully blended to make Lucky Strike. Then, "It's Toasted." This secret process brings out every essence in the tobaccos and produces a flavor which makes Lucky Strike a delightful alternative when you crave fattening sweets—there is no interference with a natural appetite for healthful foods. That's why folks say: "It's good to smoke Luckies"

At the same time toasting removes impurities That's why 20,679 physicians are on record that Lucky Strike is less irritating than other cigarettes. That's why prominent athletes have testified that Luckies steady their nerves and do not impair their physical condition. No wonder that this was discovered long ago by many men, who pride themselves on keeping trim and fit, who love the "pep" that comes with health and vigor.

A reasonable proportion of sugar in the diet is recommended, but the authorities are overwhelming that too many fattening sweets are harmful and that too many such are eaten by the American people. So, for moderation's sake we say:—

"REACH FOR A LUCKY INSTEAD OF A SWEET."

Reach for a Lucky instead of a sweet.

City's Oldest Church Building Passes Out After Housing 8 Different Creeds

EIGHT different creeds of religion have been taught in one of Marion's oldest structures, the brick edifice on North State st, which was recently torn down to make room for the new Seventh Day Adventists' church.

It was the oldest surviving church building in Marion, and without a doubt had housed more denominations than any other building of its kind in the city's history.

It was built in 1843 by the Lutheran and German Reformed Societies on lot No. 1 of the original plat that had been donated for church purposes by Eber Baker, Marion's founder. At first they held combined services, but later abandoned that plan and agreed that each society should hold its own services on alternate Sundays under its own pastor.

From 1848 until 1850 the building was used as the United Brethren place of worship, although neither of the original church organizations forfeited ownership.

Buys Full Control

May 13, 1850, the German Evangelical Salem church purchased the interest of the German Reformed, making it both German and Lutheran. They continued to hold services on alternate Sundays until the whole interest was purchased in 1882 by the members of the Lutheran church. The Reformed church congregation moved into a building of its own at that time.

The North State st edifice was used solely for Lutheran services until the Baptist minister, acting for the members of that denomination, purchased it in *1890 for their place of worship.* They occupied the church until about 1907, when they moved into the new Baptist church.

The Universalists occupied the church until April 27, 1920, when the Seventh Day Adventists purchased it for their services. They occupied it until about a month ago, when contractors began to tear it down for the new Adventist edifice.

Plans for the new church are now practically completed. A building permit was taken out Wednesday, and work is expected to start in the near future.

Father: don't take "flu" home to the baby

Dr. David says: "Take these two precautions daily"

"Fathers who are out in the crowds, contacting many people every day, are the very ones who should guard most against influenza germs.

"It is not yet clear how such germs are spread or passed on from one to another, but the man who keeps well himself is actually protecting his family too.

"I'm going to prescribe *two* daily precautions. If you follow them, the chances are you'll be safe.

"First keep a bottle of Mistol handy and use it freely. It is quite harmless but it *does protect* against influenza germs.

"Mistol is easy to use in the office because of the handy dropper for applying that comes in the package. Tilt the head far back and let the soothing Mistol run down the back of the nose and throat. You'll feel the cleansing effect at once. And if you have a sore throat or touch of a cold, gargle Mistol freely too.

"The second safety measure is as *easy as the first. Take a dose of* Nujol every night. Nujol keeps the system in good condition.

"Physicians agree that, particularly in times of epidemic, purging by laxatives and cathartics is not advisable. *Many doctors are therefore prescribing* Nujol, as in no case does it cause exhaustion or weakening of the system in any way.

"Nujol is as harmless as water. Just a pure natural substance that keeps the system *functioning as nature intends it to.*"

The combination treatment of Mistol and Nujol is a double check against "flu" and colds. Both products are on sale at all druggists, now.

Ritzy Rosalie

WHAT Rosalie merely intended as an eloquent gesture was taken seriously by the rest of the bunch and she has to wash the dinner dishes. Rubber gloves and a long handled dish mop don't help matters any and the fact that she had this housedress ensemble already at the lodge makes it still worse, for there's no way out. The printed frock has snaps under the tabs that trim it so that the accompanying rubber-back apron snaps to the dress instead of *making a neck strap necessary.* Housewives appreciate more than Rosalie, perhaps, the fact that these strapless aprons are kind to carefully combed hair and are easy to remove in a jiffy since the snaps are always under trimming tabs, pleats, pocket lapels and collars. Sometimes one apron matches two frocks. — Copyright 1929, King Features Syndicate, Inc.

115-horsepower motor; Double-drop frame; New, longer, lower lines; Dual carburetion; Non-shatterable windshield; Adjustable front seat; Automatic choke control; Safety steel-core steering wheel; Ball bearing spring shackles; Houdaille hydraulic shock absorbers

AT THE moment when eager eyes turn to the newest offerings of American automotive genius, Studebaker announces a surpassing achievement—a new and finer world champion President Eight! A motor car priced in a range where such performance, such luxury, such beauty of coachcraft and color, have never sold before!

In traveling 30,000 miles in 26,326 minutes the great President Eight officially demonstrated more speed and endurance than any other regular factory production car the world has ever known. The President Eight today holds *every* official speed and endurance record for fully equipped stock cars.

Today's motor car is the eight! At the recent Paris Salon de l'Automobile—at the Olympia Motor Show in London—on the boulevards and highways of America during the past twelve months, the trend of motor car demand has been unmistakably to the straight eight.

The Eight is THE Car. This is THE Eight!

It has been Studebaker's privilege, through providing the first truly great eight of moderate cost, to be the standard-bearer of the industry in the swing toward this finer, more flexible, more suave and pliant transportation. Dramatically and sensationally, Studebaker's President Eight led the way.

But the engineering genius which created such a car could not rest idly on its laurels. Hence today, Studebaker presents a still greater President Eight—the triumphantly successful product of Studebaker's research laboratories and million-dollar Proving Ground.

NEW PRESIDENT EIGHT BROUGHAM FOR FIVE—*Six wire wheels and trunk are standard equipment—$2350 at the factory. Equipment, other than standard, extra*

This new President Eight is as near to a perfect motor car mechanically as champion-builders can make it. It is a large car—but not bulky. It is a genuinely beautiful car—a smart car—with good taste in every line and in all its appointments. It is a fast car, and enduring. Its manners and its comforts await your appraisal in Studebaker showrooms today. Come, drive a champion!

paid a month's premium and to inherit Wood's real estate holdings, running into hundreds of thousands of dollars. Wood had sued for divorce Dec. 14, after giving Mrs. Wood $30,000 in cash and two houses.

Gather in Home

The murder attempt took place at 10 o'clock last night. An hour before that time police, newspapermen and cameramen, their eyes and lenses trained on the Wood office, across the street, secreted themselves in the home of George Whitman, grimly awaiting the appearance of the conspirators.

Without the least suspicion being aroused the first part of the plan was carried out. Holt visited Wood and told him of a visit to be paid him within a few moments. From that time on members of the ambuscade sat primed to the highest key of excitement.

The whir of an automobile motor was heard. Scarcely a moment later the conspirators' auto hove in sight. From his peek-hole in Wood's office, Herman L. Sullivan, partner of the intended victim, saw Holt and Haggerty come onto the steps of the office.

Empties His Gun

Sullivan pulled a clothesline rope that extended from his hideaway to where Wood sat. Wood silently arose, turned out the office lights and stepped out onto the porch.

Haggerty raised his arm to strike. Wood whipped out an automatic and fired. He emptied his gun at Haggerty despite the fact that he has only one arm. Simultaneously Sullivan and in hand, and from his hiding place, shooting as he came.

Panic stricken, Taylor Pierce and William Thompson, other members of the murder band who had remained in the car, started the motor for a getaway.

They ran a gauntlet of deadly gunfire for 10 yards unscathed, coolly returning the fire. They succeeded in hitting Deputy Thomas Dunnigan who raced alongside their speeding car. Thompson and Pierce were captured two hours later.

Detectives found Mrs. Wood in her home here. She was partly clothed and in bed, they said, protesting she was suffering from influenza.

Orders Her Arrest

Assistant Prosecutor Buckley ordered her arrested and taken to police headquarters. When she arose, she staggered about the room, Buckley said. Holt had informed authorities they would find her at her home drunk. According to Holt, Mrs. Wood had intended to accompany the gunmen but had drunk so much they had to take her home.

Wood met his wife in the homicide squad room at police headquarters.

"Hello, Grace," he said, according to witnesses. "It's sort of awkward, isn't it. I don't know what to say, Grace, but I can't feel sorry I killed that fellow when I think what he intended to do to me."

lect of duty," Judge Scofield declared," and should be removed from office." The removal was under a statute providing for the removal of public officials who fail to perform the duties of their office. In referring to this statute Judge Scofield remarked that it should be brought into use in more cases than it is.

In referring to the indictment charging Smith with embezzlement of $2,010.86 in public funds and to the report of state examiners showing Smith to be short this amount, Judge Scofield stated that he would not remove him on these grounds because the recorder was not guilty of embezzlement until proven so in court.

Active Party Worker

Mrs. McKeever, who replaces Smith as recorder, has been active in Republican politics in the county for a number of years. Her activity dates back to the period before women were granted the right to vote. During the recent general election Mrs. McKeever served as secretary in charge of Republican headquarters here.

The removal of Smith this morning adds another chapter in the mysterious case of the young official. Smith, elected in 1924 at the age of 21, was said to be the youngest county recorder ever elected in the state. He had completed his first term and had started his second when he mysteriously disappeared from the city on April 20, 1928.

No diligent search for the official has been made by local authorities. It is generally believed, however, that there are persons in the city who have received word from him during the last eight months. Whether his bonding company has made any effort to find him is unknown.

Full Recovery Doubtful

Although Smith's shortage, as shown in the report of state examiners T. W. Jones and A. G. Atwill, is $2,010.86, the county will probably be able to collect only a little more than half the entire shortage from the bonding company. Rulings of Ohio courts in other cases of a similar nature hold that Smith's salary continued from the time he left his office until he was removed this morning. His accumulated salary for slightly more than eight months at $177 a month amounts to more than $1,416.

The bonding company, it is claimed, will be able to claim this accumulated salary to reduce the amount of the shortage.

AN American may become head of the Salvation Army forces throughout the world in place of General Booth, who has ruled from London. Supporters of General Booth see the power of "American gold."

The Salvation Army in America has $43,000,000 worth of property, and where money is power is.

Those that have contributed to Salvation Army funds are delighted to know that the army is doing so well. Some may wonder whether wisdom was shown in not devoting more of the $43,000,000 to the poor, and less to property.

ANNUAL MEETING HELD BY CHURCH

Trinity Baptist Congregation Elects Officers, Receives Reports

Officers were elected and reports read at the annual meeting of the Trinity Baptist church, held Wednesday night in the church parlors.

The meeting was opened by a service of prayer conducted by the pastor, the Rev. Lawrence A. Wood, who also presided at the business meeting. Annual reports were received from all boards and committees of the church and from all the societies of the church.

The Sunday school reported that the average attendance of the school for the year had been 334. The six-point system has been adopted for the junior, primary and beginners departments. Plans are now being developed for enlargement of the school. Reference was made to the success of the "White Gift" Christmas service by means of which many baskets were distributed throughout the city.

Membership Increase

The clerk, D. H. Gorman, reported that there had been 44 additions to the membership during the year and that the present number of members is 776. Senior deacon and chairman of the board of deacons, C. S. Lipplncott, reported 12 deaths. Prayer was offered for divine consolation to be granted to all families where death had occurred during the year, and for the recovery of the many members who are now ill.

The church treasurer, Miss Florence S. Durfee, reported that the receipts had been $5,074.32, and expenditures $5,485.89. Benevolence treasurer, Clyde C. Smith, reported $1,800 received for benevolence and missions. Reference was made to the splendid service rendered the church by the former pastor, U. S. Davis, and by Mrs. Davis during the first six months of the year.

Officers Elected

The annual election was held and resulted in the selection of the following officers: for three years, deacons, H. F. Pulsford, E. O. Guenther, and Clayton Dix; trustees, William Ullom and E. E. Patton; finance committee, H. T. Gracely, H. J. Merchant, for two years, Pearl Thatcher, member of music committee, Mrs. Dewitt Shadduker. The following were elected for one year: church treasurer, Miss Florence Durfee; benevolence treasurer, Clyde C. Smith; clerk, D. H. Gorman; Lend ather, William Kerr; auditor, Guthery Uncapher.

After the business meeting the finance committee met and outlined plans for the annual every-member canvass. The chairman of the committee is Frank Glosser, and A. A. VanAtta is secretary. The canvass will be made Sunday afternoon, Jan. 27.

DRUNKS KIDNAP AND ROB CAR EMPLOYES

Conductor, Motorman "Taken for Ride" by Armed Men

COLUMBUS, Jan. 10—Two street car conductors and a motorman today were excitedly relating to friends how last night they were kidnaped by two drunks, "taken for a ride" and robbed of $25. According to the car crew, the two inebriates accosted them as they reached the end of their north side route, forced them into a small sedan, chauffered them about the city for 15 minutes, robbed them of the sum of money and then evicted them from the car. The men were armed, the crew said.

At one time during the ride, one of the thugs is reported to have said, "I voted for Al Smith and he lost. Now I won't work for five years."

The crew consisted of Conductors Alick Bower and Roy Manring, and Motorman H. B. Dierdorff.

The men talked freely during the ride, the crew reported, and at frequent intervals, "tapped" a liquor bottle.

GIVEN 2 YEARS ON BAD CHECK CHARGE

George Schmidt Sent to Pen for Issuing Worthless Bank Orders

Continued From Page One.

sued two other worthless checks not covered in the indictments.

Second Prison Term

This will be Schmidt's second trip to a state penal institution. He previously served a 13-month sentence in the Mansfield reformatory for assaulting a person with a section of loaded rubber hose.

Judge Scofield was unmoved by Schmidt's plea that he hoped to be married soon and settle down. Nor did the prisoner's statement that he intended to open an account at the bank soon after the checks had been issued, alter the severity of the sentence.

The prosecuting attorney and police prosecutor have no intention to make an example of any particular bad check artist in an effort to discourage the practice they say. In the future, they promise, their offices will exert every effort to prosecute such offenders rather than serve as a collection agency for bad checks.

Warned by Judge

In sentencing Schmidt, Judge Scofield told him that he had plenty of time to reform after being released more than a year ago from the Mansfield reformatory. The two-year sentence was then passed and as a further inducement to Schmidt to mend his ways after ending his term Judge Scofield told the prisoner that he was being sentenced only on one indictment. The other two, to which Schmidt also pleaded guilty, are being filed away by the judge.

"Unless you go straight after this term is over," the judge warned the prisoner, "I'll give you another term on these charges."

Heintz Sentenced

William Heintz was given one year in the Ohio penitentiary by Judge Scofield when the prisoner pleaded guilty to stealing an automobile as charged in an indictment returned against him by the grand jury last Monday.

Both prisoners will be taken to the penitentiary by Sheriff John J. Francis within a few days.

VARIED WEATHER

Wide Range of Offerings Here; Rain or Snow Friday

All kinds of weather—good, bad and indifferent—has greeted Marion in the last 24 hours and from predictions this condition bids fair to continue for another day.

The United States weather bureau report says that Friday will be cloudy, followed by rain and light snow.

This morning almost spring-like weather prevailed but the mercury started to drop as the wind moved to a westerly direction. Wednesday night there was a little snow, a little rain, some sleet and quite a bit of ice. Pedestrians homeward bound late last night found navigation bad.

Yesterday the highest temperature recorded was 37 degrees and the lowest last night was 33 degrees. One year ago the mercury soared to 45 degrees and the lowest recorded was 32.

Daily Proverb—"The good or evil we confer on others often recoils on ourselves."

Syracuse, New York, reports that wintry blasts brought snow flurries and swarms of mosquitos to that city Tuesday, which goes to show that not all the nature fakers have departed from this vale of tears and sorrow.

The government has seized another $100,000 worth of securities belonging to Harry M. Blackmer, the oil man, for whom a requisition was denied by France, for contempt of court in failing to appear as a witness. His contempt must be awful.

That Los Angeles film actress, for whom a bench warrant has been issued as a result of her failure to appear for trial on a charge of disturbing the peace, possibly figured that her "art" placed her above the law, a delusion from which quite a number of the movie people of very ordinary ability seem to suffer.

A Los Angeles oil man and a San Francisco girl took a fourteen-piece jazz band along with them when they flew to Reno in a big airplane to get married. It's fair to assume that the divorce will be secured without the aid of a musical accompaniment.

Washington wires report that the pacificists are stalling action on the Kellogg peace pact to kill action on the cruiser bill during the present session. Had the friends of the cruiser bill followed the same course toward the Kellogg pact it would have been pronounced "dastardly."

Pasqualino Lolordo, chief of the Chicago Mafia, was shot to death, Tuesday, just four months after his predecessor, Antonio Lombardo, was assassinated. It's hard to understand how the ambitious members of the Windy City's most notable killing organization figure that the distinction they go after is worth the price they inevitably have to pay for attainment.

There's a plan afoot to secure a nine-foot channel in the Mississippi from Chicago to St. Paul, a survey having shown that such a channel depth is feasible. Why not? Of all civilized lands, the United States makes the least use of its rivers, yet inland waterways, above all other physical means, would prove the most effective in reducing the cost of living.

A wire from Boston states that "the largest tooth in the world, measuring eleven feet and two inches in length and weighing 300 pounds, has just arrived at the Harvard Dental School museum." Realizing that all of us are not from Boston, it was explained that a tusk is a tooth.

A motorcycle policeman out in Evanston, Illinois, insists that two horses, hitched to an ice-wagon, which he was chasing as they dashed wildly down one of Evanston's streets, stopped "dead still" when the red light turned against them. Maybe so. We can't say; but it sounds an awful lot like a story from Winsted, Connecticut, the home town of the world's most picturesque liar.

Not Such Easy Sailing.

Judging by yesterday's advices from Washington, the various pacificist and socialistic organizations arrayed against the fifteen-cruiser bill indorsed by President Coolidge are not going to have the easy sailing they hoped for in accomplishing the defeat of that proposal. It is true they have the best wishes of the disloyalist element of the country for the success of their attempt to hamstring the navy, but they have found by a canvass that many members of the upper house they expected to get on record against the bill refuse to be either browbeaten or intimidated.

Pacificist leaders had hoped to put the entire senate membership on record as the outcome of the demonstration held by them in Washington, this week, at which Frederick J. Libby, of the National Council for the Prevention of War, is reported to have been the dominating spirit. Star readers will probably recall past references in these columns to Mr. Libby, which will give them a fairly good line on the character of the demonstration. It had been planned that delegates from each state in the union would be present to bring personal pressure upon its senatorial representatives, but if they were it is evident that few, if any, of them had the personal influence necessary to get members of the senate to commit themselves in opposition to the bill. In any event, of the twenty members reported to have been seen, all but three were found to be for the bill.

Perhaps no more enlightening comment on the character of the opposition to the bill can be offered than the statement that the three exceptions were Senators Nye and Frazier, of North Dakota, and Brookhart, of Iowa.

Life Sentence for Palm Affirmed.

The supreme court of Michigan has upheld the habitual criminal provisions of the new criminal code of that state, the court's decision being rendered in affirming the conviction of Fred Palm, of Lansing, who was sentenced for life to the state prison at Jackson upon being found guilty of possession of a pint of gin. Palm had previously been convicted of burglary, of defacing United States currency and three times previously of liquor law violations.

The court, pointing out that Palm had been convicted of four felonies without counting the last two, in his opinion said:

"Experience teaches that the fear of severe punishment is more likely to rid the state of this type of professional criminal than any effort which may be made looking toward reformation."

There can be no question but that Palm is what may be termed a very bad actor, and there will be very general agreement with the court that endeavor to reform a man of his stamp would in all probability prove effort wasted. There can be no question, either, but what the Michigan law will very likely result in driving the greater part of the criminal element out of that state. We haven't a doubt, furthermore, of the merit of an habitual criminal act which provides life imprisonment for conviction of a fourth felony when such felony is what is recognized as a major crime, but we confess that we have our doubts about the justice of a law under which a man or woman—and it was in Michigan that a woman has been sentenced to prison for life on a fourth conviction of possession of liquor—may be committed to prison for life on a fourth conviction of a felony when that felony is possession of liquor, which, it was made evident at last November's election, 16,000,000 voters of the land do not believe should be held a felony. And question of the justice of such a sentence becomes the more pronounced when it is shown the sentences for murder in the same state have been running from seven and a half to fifteen years.

A married woman of Cracow cut out the tongue of her paramour with a bread knife when she discovered that he was not faithful to her. Over here the favorite method is to shoot them in the back "in self-defense."

Eleven young communists in the town of Lleava, Russia, both boys and girls, took their lives last week as a result of the revival of pessimism in Slav literature. Another effect of the Bolshevik brand of "Liberty and Equality."

New York Central May Electrify.

Some months since the Pennsylvania ran advertisements announcing that it would expend $100,000,000 for motive power and all-steel passenger equipment and a like sum for the electrification of something like 300 miles of its lines out of eastern points.

Now comes the announcement that the New York Central is considering plans to run trains from New York City to Buffalo with power from Niagara falls.

The New York Central's project, if carried into execution, will occasion an estimated expenditure of $75,000,000. Covering a distance of nearly 500 miles, it would far surpass the 300-mile undertaking announced by the Pennsylvania, and prove the outstanding example of railroad electrification east of the Mississippi river.

It is said that the New York Central is not figuring that the economies in operation resulting from the electrification of the line between the two points mentioned will greatly, if any, overbalance the heavy installation charges, but that it is considering the plan because of its conviction that electricity is the only power that will move passengers and freight traffic at high speed.

Not so long ago the New York Central began providing equipment of the highest and most approved type for its high-class trains. Should it electrify its line for the distance planned, it would be in position to furnish service second to none in the country, and no doubt greatly augment its passenger business, as well as facilitate the speedy handling of its freight, for there can be no doubt but what travelers prefer the cleanliness assured by electric power to the cinders and smoke which are inevitably the result of the use of coal in locomotives.

John N. Willys predicts that 5,000,000 automobiles will be produced in the United States this year, and even his prediction that 1,000,000 of them will be exported does little to allay the conviction of us true aristocrats of the land that our time is near at hand.

It's no affair of ours, but at this distance it looks as though it might have been better judgment had something like $14,000 less been expended on a casket and that amount been contributed to the late Tex Rickard's widow.

Elihu Root has notified the League of Nations of his acceptance of membership on a committee of jurists named to revise the statutes of the World court. It is intimated rather strongly that Mr. Root is expected to show the way to such revisions as will meet the reservations imposed by the United States as a condition of membership, but even should he fail in this respect, the presence of the distinguished American on the committee should assure the World court a mighty good set of working rules.

The industrial conference board announces that taxes collected by federal, state and local governments for the fiscal year ended June 30, 1928, were $9,169,000,000, against collections of $9,074,000,000 for the preceding year, the per capita tax burden in the latter year being $76.50 against $64.77 in 1923, which shows that taxes are increasing more rapidly than population. In the case of possible doubt on the part of readers, it may be said that states and municipalities are responsible for the increase.

Diet in Intestinal Troubles.

BY ROYAL S. COPELAND, M. D.

One of the most obstinate troubles coming to the attention of the physician is the disease commonly known as mucous colitis. I was amused the other day in reading an article written by a physician in which he expressed the hope that the young doctor would not have a case of mucous colitis the first week of his experience in practice. The writer says that the disease is so difficult to treat that the young doctor would be utterly discouraged.

In this ailment there is a pain in the bowels and this may be simply a feeling of discomfort or there may be severe cutting or griping pains. There is a tenderness over the abdomen, sickness at the stomach and almost constant discomfort.

The disease is really an inflammation of the lining membrane of the lower part of the bowel. Thick patches form. This membrane in appearance is not unlike the membrane that covers the tonsils in a case of diphtheria.

Of course, we very frequently meet cases of acute inflammation in the intestinal tract. The most common one is known as catarrhal colitis. It is very much the same as catarrhal inflammation of the mucous membranes anywhere else in the body. By this I mean that the tissues involved give the usual signs of catarrhal inflammation.

In mucous colitis, however, we have very much more marked changes in the tissues, and the symptoms are more pronounced. It is an obstinate ailment and, as I have suggested, is equally trying to physicians and patient.

In any disturbance of the intestinal tract the symptoms are distressing. In mucous colitis, however, we have more than the local symptoms. We are very likely to have more or less disturbance of the nervous system.

It is difficult to think clearly. Severe headaches of the body are found in this disease. Palpitation are common. Neuralgic pains in different parts of the heart, inclination to weep, fainting spells and other nervous symptoms are observed.

The discharge from the bowels contains strings of mucus. There may also be streaks of blood and even small quantities of pus.

In mucous colitis loss of weight is invariable. The failure to sleep well, the pains and other accompaniments of the disease cause loss of vitality and undernourishment.

Probably the best way to relieve the distress in the abdomen is by irrigation of the colon. Enemas of several gallons of water as hot as can be borne will give relief. The family doctor will advise regarding this.

In all cases of disturbance in the intestinal tract, the diet is a matter of importance. It is necessary to sustain the patient by nourishing food, but that food must be given in a form which will be acceptable. All the food given should be strained. Even oatmeal contains husks and fibre, things which are irritating. This should be run through a sieve.

Raw fruits and vegetables are not good things to give because they contain so much indigestible material. If they are cooked thoroughly and then strained, so as to remove all irritating material, they may be safely taken.

In a trouble so obstinate as this, it is needless to say the patient should be under the care of the family doctor. He will recommend the remedies.

GOOD OR BAD LAWS?

Outstanding among the pre-election pledges of Governor-Elect Cooper were two which are vividly recalled as the Ohio legislature begins its biennial session.

These were the repeal of the Pence act and a short session devoted more to the repeal of existing laws or to their amendment than to enacting new legislation.

There is a belief among those who have given the matter of legislation a passing thought that the general assembly may best serve its constituents by passing a few laws that are required to meet changing conditions, amend some that are not working satisfactorily, repeal the obsolete and nonessential laws, call it a day and go home.

The first day introduction of bills may be an indication of what is in store. There was the usual flood of trifling and unimportant legislation. If the assembly is to be flooded with bills of that character there is little likelihood of a short session or in any event, of a session that will accomplish what is intended by the new administration.

There is really serious work ahead of this assembly. It will require the efforts of the administration backed by the best brains of the legislature to put the program over. It can not be done if the time of the members is to be taken up with trifling and unessential bills.

If the composite advice of the people of the state were to be given the legislature it might be in this form:

Disregard the unimportant measures offered for your consideration;

Insist on prompt action for the bills that are demanded;

Be certain that they contain no jokers or fatal errors;

Insist on the consideration of bills that are vital to the legislative program;

And don't prolong the session beyond reason.

The new administration is voluntarily pledged to the repeal of the Pence law. A repealer already has been introduced. It should have early consideration by the members.

Another bill that will be up for consideration is the recodification of the criminal code. With it is coupled an habitual criminal act. These are bills that also should have prompt consideration.

The new elections code, providing for permanent registration and revising election laws to meet changing conditions, should have the earnest though of the members of both houses.

There will be a taxation proposition that will require action.

With these measures the legislature can well spend a few productive weeks. If they do there is some hope that it will result in a short and snappy session. But if that body insists in becoming enmeshed in a log-rolling, back-scratching session of reciprocal legislation there is no telling when it will end or what the result will be. It is, however, likely to result in a determined protest from a long suffering public.—Columbus Citizen.

PENCE LAW REPEAL.

The prospect for the repeal of the Pence law by the present legislature, a desirable consummation prevented at the last session through the collusion of the public utilities and Anti-Saloon league lobbies, appear rather bright. A bill to that effect has already been introduced in the house. Governor-Elect Cooper strongly favors the repeal, Attorney-General Turner has made a gallant fight for it and now Senator Aigler, president pro tem. of the senate, has come out for it in no uncertain terms and declares he thinks it will go through.

The Pence law enables public utility corporations to put into effect increased rates for their service in advance of the final fixing of the rates by the Public Utilities commission. Such increased rates may remain in force for years, without formal approval by the commission and the courts, and, while the corporations are obliged to bond themselves to pay the money back if the decision goes against them, it may be for years and it may be forever before the people really recover the amount of the overcharges. The Pence law gives the public utility companies an unfair advantage over their patrons. In general it may be said that the state is more in need of repeals than of new laws. The Pence law is a conspicuous example of past legislation that ought to be removed from the statute books. It was not designed to promote the public interest and does not do so.—Ohio State Journal.

New York Day by Day.

BY O. O. McINTYRE.

New York, Jan. 10—About 10,000 manuscripts of plays are dumped weekly onto the desks of New York theatrical producers. This does not include the large number sent literary agents, the professional play readers and manuscript doctors.

The great majority are hopeless, amateurish efforts and come from all corners of the world. Many encompass the futile dreams of servant girls, farm hands, lumber jacks and lonely seamen. Thousands of mothers try playwrighting in the hope of educating their children. It is not fiction that almost everybody tries to write a play.

The largest number of manuscripts come from southern states, but California has a huge number, especially among those who have retired and wish to relieve the monotony of leisure. There is no calling offering greater discouragement especially for the unskilled.

The first play by an amateur has been achieved, but the ratio is about one in 5,000,000. An understanding of stage technique is now almost an absolute necessity. The best plays have always lately come from those associated in some fashion with the theater.

Nearly every producer has an expert play reader. One firm employs nine. Manuscripts are received by them and carefully read before going to the producer. Only those likely to interest him in more than a casual way are presented. Ninety-nine out of a hundred submitted he never sees.

There is no doubt thousands of play ideas submitted by the amateur have been plagiarized, but unless his play has been carefully copyrighted he has no chance of reprisal of any sort. Schools of dramaturgy have turned out a few successes but the number is extremely small. Experience counts most.

But once the writer of a play has nibble for his effort, the rest is comparatively easy. Every producer is at his heels. There is some sort of mysterious communication along the Rialto about such matters. The news spreads like wildfire.

• • •

Innumerable playwrights have made fortunes and lost them as quickly trying to produce their own plays. A good play belies the old theory too many cooks spoil the broth. As a rule the best plays are those that have received the professional touch of many hands. Belasco, incidentally, is said to receive more manuscripts than any other producer.

There is one block in the Forties between Fifth and Sixth avenues that boasts of thirty-seven speakeasies. Most are in old brown front houses and to the casual passerby are as quaintly and peacefully mid-Victorian as their architecture. The windows are hung with white curtains and the reception room resembles the old-time front parlor with its napping window cat and blazing chandelier. But in the hidden recesses are perfectly equipped bars going full blast.

New York offers extremely strange jobs. Recently a comely young girl employed in a department store departed on a trip around the world with all expenses paid as the companion of an elderly lady. There was no salary, but an agreement was drawn up whereby the young lady was to receive the sum of $5,000 deposited in a bank, at the completion of the journey, provided she shunned all male companionship on the trip.

On every trip to London, I have dropped around to the Cheshire Cheese in Fleet street with the rest of the yokels to absorb the "literary atmosphere," loll in the seat where the good Dr. Jonson regaled cronies with witticisms and partake of a portion of the famous meat pudding. I recently re-read Boswell's biography of Jonson, and not once is the Cheshire Cheese mentioned. Tricked again. We now wonder if Washington was ever at Fraunce's tavern.

The Ancient Elephant.

BY GARRETT P. SERVISS.

The soil of Utah has yielded the skeleton of a mammoth—Elephas primigenius—the "hairy mammoth" of geological fame, from a gravel pit in a terrace of the ancient Lake Bonneville, which in prehistoric days covered that part of the land. Perhaps the most characteristic American elephant was the mastodon, of which so many remains have been found in New York state and other parts of the East. But the mammoth is the beast that used to be known to the ancient cavemen of Europe, who drew its huge form in life-like portraiture on the walls of some of their home caverns.

Now we have striking proof that this giant companion of early European men was an inhabitant of our own western continent at the same time that he was exercising the dawning artistic genius of the cave dwellers of the old world. The intensely interesting question that remains to be answered is whether man, too, was here with him. Some of those who ought to be authorities say "yes," but others say "no." But if the mammoth, who is not by nature a navigator, could get here, why could not man? If so strange and unwieldy a beast was world-wide in distribution during the glacial age, why should it be regarded as inferentially probable that a far more active and mobile contemporary was confined to a single half of the globe?

Anyway, if the mammoth preceded man in America, he recorded a story which can quite easily be read without the aid of cavern pictures. This particular specimen, found near Payson, Utah, last September, has left a remarkable history in the ancient clays and gravels where he died and was buried by nature. Only a part of him was found, as described by George H. Hanson, of the Brigham Young university, who supervised his disinterment. That part includes two well-preserved, spirally shaped tusks, a lower jaw, some rib bones and two legs with their feet. The strange thing is that these parts were preserved because in the burial they happened to be embedded in a bed of fine clay. Above this bed, fifteen feet thick, was a layer of "almost blood-red gravels," and below it a bed of coarse grain sands. And so much of the skeleton as projected into the red gravel above or the coarse sand beneath was completely oxidized and so lost, while the section between was preserved in the clay.

But listen to the story told by his tusks. The left tusk is six feet long, curved and terminates in a sharp tip. The right tusk is only five feet five inches, being much worn off at the end. This tells of the creature's life. He had dug hard for his living along the shores, probably swampy, of that now vanished lake. Professor Hanson says it has been observed among the African elephants of the present day that almost invariably they wear down the right tusk by digging, a curious example, one might remark, of "right-handedness" in an animal below man. Hitherto, I believe, right-handedness has been regarded as a specially human characteristic. Some men are left-handed, and so, perhaps, are some elephants. But this ancient individual followed the rule of the majority of his kind.

It is estimated that he lived 30,000 years ago. He had at least one contemporary of his own race, one of whose hind legs, 6½ feet long, was found in another gravel pit two miles away.

It is not many years ago when our fathers used to read with a thrill Horace Smith's "address" to an Egyptian mummy:

"And thou hast walked abroad—how strange a story!—
In Thebes' streets three thousand years ago,
When the Memnonium was in all its glory,
And time had not begun to overthrow
Those temples, palaces and piles stupendous
Of which the very ruins are tremendous."

But the life story of the earth is stretched so vastly beyond the beginnings of all recorded and monumented history by these ancient elephants of Utah that Egypt and *Adam no longer seem of imposing antiquity*.—Copyright, 1929, International Feature Service, Inc.

The Way of the World.

BY GROVE PATTERSON.

Have you checked over your mental possessions lately to find whether you have an idea that is worth eight and a quarter million dollars? Twenty-five years ago, John R. Roney, of Chicago, produced an idea. He started a grocery store and then another and soon had ten chain stores. He reached out of Chicago and into other towns. Lately he discovered he had 300 stores, and he sold out everything, including his big baking and coffee-roasting plants, to the Kroger company for $8,250,000. Roney had two things: an idea and the nerve to go ahead with it.

"Business is but a relationship between human-beings. Human-beings must work and live, but above all things they want to be happy, and it is the duty of every one of us to seek to make those around us as happy as we can."

Thus speaks a famous business man—Charles M. Schwab. It is not hard to understand why so many little business men are little. They have not the intelligence or the imagination to see business as a great human relationship for purposes above and beyond profit.

Don't blame the other fellow if he looks down on you. If you are not big enough he does not respect you, or your position or your title or your executive authority. He is not to be blamed. It is your own fault. If a man fails to dominate, it is because of a certain softness in his make-up. He is weak, timid; lacks courage and character. Don't blame the men who look down on you. If we aren't strong enough to command respect, then we have humiliation coming to us.

Speaking of title and authority, some men try to preserve their executive dignity by a private office and an upstage manner. They fool nobody. You either are somebody or you are not. The trappings of title don't make you a wonderful fellow any more than they make the carriage starter a general.

OUTH SURE HE'LL GO TO ELECTRIC CHAIR

arm Hand Dazed as He Awaits Grand Jury Action on Murders

CANTON, Jan. 10—Still somewhat ...ed by the sensational events that ...s figured in during the last 48 ... "Eddie" Keltenbaugh, 21, ...ed slayer of Mr. and Mrs. John ..., was held in the county jail here ...day, awaiting grand jury action.

...ugh is confident that he'll go ... the electric chair. He groans as ... relives how he shot Oser, with ... rifle, last Saturday night. ... had hired Keltenbaugh as a ... to work on the Oser dairy ... near Canal Fulton. Keltenbaugh, ... home is in Grove City, Pa., ... been wandering about in eastern Ohio and Pennsylvania, he relates, seeking employment.

His desire to use their automobile to impress his girl, in New Castle, Pa., led him to kill Mr. and Mrs. Oser, the youth says. After shooting Oser he also shot Mrs. Oser, dragged her body from the house, beat her head with rocks and left it near the garage, according to Keltenbaugh's signed statement.

Sanity To Be Issue

The case will probably be presented to the grand jury, which is now in session here, the first of next week. The court battle will be fought out, almost certainly, on the issue of Keltenbaugh's sanity, according to Prosecutor Harter.

"I feel awfully bad about it," Keltenbaugh said, sitting in his cell, grinning. "I suppose I'll get the electric chair. I wanted an automobile and it came over me all of a sudden that that was the way to get it. The little boy was asleep, so I didn't do anything to him. I don't know what I'd have done if he had been awake."

Still the maddening, moronic smile.

Funeral Held

Mr. and Mrs. Oser were good to *him*, Keltenbaugh says. He was treated as one of the family by the young people, and ate at the table with them every meal.

The Sts. James and Philip Catholic church at Canal Fulton was filled to capacity yesterday when funeral services were held for Oser and his beautiful young wife. Among those in attendance was little Harold Oser, 7, son of the murdered couple, who rode a half-mile on his pony last Sunday morning to inform a neighbor that: "Dad's asleep in the milk shed and I can't wake him up."

The Oser's other son, Carl, 11 months old, is cared for by relatives at the Oser home.

PENNSY TRIES OUT NEW SIGNAL PLAN

Use on Local Division Depends on Results of Tests in East

Possibility of the new cab signal system, which is now in use on many of the eastern divisions of the Pennsylvania railroad, being brought to the local division of the road, depends upon the success with which the system meets in the east, according to opinions expressed at offices of the company in Marion.

The Panhandle division, more familiarly known as the Columbus division, has already given the new system a trial and reports from there indicate "satisfactory" results.

The system has met with the favor of the interstate commerce commission, although the members do not state that the new method is preferable to the automatic train control, the plan now being used.

The plan was originated when the Pennsy officials began to take steps toward installing the automatic train control about six years ago. They did not feel that this system was either the last or best word in safety.

They began working on the theory that the plan most conducive to safety would be one that would not take control away from a trained engine crew but one that would make a certainty of taking signals to the crew and then leave them free to act on the information.

The system has been so perfected that it gives to the engineer and firemen, on miniature signal boards on their respective sides of the cab, complete information about operating conditions, as in the automotive train system. Despite rain, snow or fog, the signals flash on and off in the cab and when there is a signal that means change of speed, a little whistle sounds to command the train crew's attention.

Routine business was also taken up in the meeting yesterday.

Best Remedy for Obstinate Cough Made at Home

You'll never know how quickly a stubborn cough or chest cold can be conquered, until you try this famous recipe. It is used in millions of homes, because it gives more prompt, positive relief than anything else. It's no trouble at all to mix and costs but a trifle.

Into a pint bottle, pour 2½ ounces of Pinex; then add plain granulated sugar syrup or strained honey to make a full pint. This saves two-thirds of the money usually spent for cough medicine, and gives you a purer, better remedy. It never spoils, and tastes good—children like it.

You can actually feel its penetrating, soothing action on the inflamed throat membranes. It also promptly loosens the germ-laden phlegm, and at the same time, it is absorbed into the blood, where it acts directly on the bronchial tubes. This three-fold action explains why it brings such quick relief even in severe bronchial coughs and "flu" coughs.

Pinex is a highly concentrated compound of genuine Norway pine, containing the active agent of creosote, in a refined, palatable form, and known as one of the greatest healing agents for severe coughs, chest colds and bronchial troubles.

Do not accept a substitute for Pinex. It is guaranteed to give prompt relief or money refunded.

Again?
A day that might have meant so much—and she has to be excused. What a pity there's a woman left who does not know of Midol! One or two tablets in time, and not a twinge of pain throughout the menstrual process. Or an end to such suffering at any time, five to seven minutes after Midol is taken. Yet this merciful medicine is non-narcotic. Its wonderful results are due to the fact it acts directly on the organs affected; so it's utterly harmless, and it is only common sense to use it. Midol comes in a clever little case of aluminum you can slip in the smallest purse. And the cost of this comfort is fifty cents.*

*Midol's comfort is not confined to any certain days or age. It relieves at any time of life. Its ease is felt immediately in cases of nervous headache, backache, cramping, hot flashes and all febrile pain peculiar to women.

Love's Awakening

The Heart Story of a Woman's Lasting Affections

BY ADELE GARRISON

Marion's Friendly Farewell

I WAS not the only person worried over Lillian's reaction to Marion's patent glee at starting for her school. That became evident as Harry Underwood twisted around in the driver's seat so that he could keep one eye on the comparatively straight and deserted road in front of him and yet observe his wife.

"I'd defy anybody not to laugh at that chimpanzee in the doorway," he said, answering Lillian's startled comment upon Marion's laughter at Katie's wailing and melodramatic farewell from the veranda steps. "Hope I haven't offended you, Lady Fair, by applying such an epithet to your devoted handmaiden."

"You've saved me the trouble," I said with a twinge of conscience as I thought of Katie, but determined to play up to him in his effort to ease Lillian's wounded sensibilities. "Katie's a dear, and I love her, but she's a whole movie farce in herself when she stages a farewell to anybody she likes."

"That's just it," Lillian said, with a troubled face. "It's because she adores Marion that she's giving way to her feelings in that absurd fashion. And—it isn't like my girl to make fun of anyone who loves her as loyally as Katie does. I don't like it."

Hidden Fears

I sensed the hidden fear which lay behind her words, the dread always with her that her lovable, high-minded young daughter might develop some of the traits which made her father so despicable. I had no means of knowing whether Marion really had been laughing at Katie or from sheer high spirits at starting for school. But I did know that either hypothesis was painful to Lillian, and I hastened to offer a theory which I hoped she would accept, but which I was sure had no whit of truth in it.

"I don't believe she's really laughing at Katie in the sense of making fun of her," I said. "She's so excited at leaving home, so choked up and near tears which she is too proud to shed that she's taking refuge in laughter. And you know Dicky will do his best to make her laugh—he's so afraid of any gloom near him."

Lillian's eyes were turned to the car back of us in which Marion was riding with Dicky, and she did not see the emphatic gesture of approval which her husband gave me. I did not know at first whether or not she had heard me, but after a little she turned around, settled down in her seat and said slowly:

"I suppose that is the answer. Well, at any rate, if she is blue Dicky will be the best possible medicine for her."

But there was no sign of downheartedness in Marion when at the small New Jersey town, well past the heavy traffic zone, upon which we had agreed, Dicky drew his car in behind Mr. Underwood's, and, helping Marion to get out, brought her up to us.

"Northbound passengers change here for Suckettaville and intermediate points," he intoned. "Tramps and pretended chauffeurs will get into rear car."

Marion giggled joyously.

"He's been talking like that all the way," she said. "I've laughed until my sides are sore."

"Well, you'll have a rest now," Dicky retorted. "Your mother and my wife haven't a smile in their systems, to look at them. Come on, Harry. Make it snappy. Good-bye, Marion. Telegraph me if they beat you up."

She bade him a laughing farewell, then turned to her stepfather with friendly, outstretched hand. I saw that she meant to emphasize her change of attitude toward him.

"Good-bye," she said, omitting the usual formal address, "Mr. Underwood."

"It's lovely to go down in this scrumptious car. Thank you a thousand times and you will come down to see me soon, won't you?"

"That's the surest thing you know, Marion," he told her. "Remember, when you want any candy or anything against the regulations, just wire me. That's my longest suit."

"I'll remember," she told him, and then he and Dicky were on the way back to New York, while I restrained an impulse to give Marion an enthusiastic hug. That simple, friendly farewell, evidently genuine in its good feeling, had made her step-father and mother inordinately happy.

QUICK RELIEF FROM CONSTIPATION

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel.

Dr. Edwards, a practicing physician for 20 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torpid livers.

Olive Tablets do not contain calomel, just a healing, soothing vegetable laxative mixed with olive oil.

No griping is the "keynote" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to unnatural action.

If you have a "dark brown mouth"—bad breath—a dull, tired feeling—sick headache—torpid liver—constipation, you'll find quick, sure and pleasant results from one or two of Dr. Edwards' Olive Tablets at bedtime.

Thousands take them every night to keep right. Try them. 15c, 30c, 60c.—

Jubilee's Pardner

A Story of Boyhood Adventure

BY JUDD M. LEWIS

TOMORROW will be Friday. Summer has not come. It froze last night, and when I let Jubilee down by the rope in his teeth this morning the world was all glary ice, and when I went out with the ashes I wasn't thinking and the steps had been wet from the water that dripped off of the roof all day yesterday where the snow was melting, and it had froze, and I sailed out so fast that though it was the top step my foot slipped on it was the bottom step that I sot down on, and I sot down on it hard. I didn't have to spill any ashes on the steps. They were already spilled, and on me too. Jubilee was out trying to run around the yard to get warm, but every time he would try to make a turn his feet would skid, and he would go sliding across the yard on his stummick. I would rather he would slide on his than on mine.

The Last Bag of Tripe came to school today. He told me he had tooken red ink and painted all around his eyes so as to scare Mush's wife, and I wouldn't of blamed her if she had got scairt. His face would have scairt a horse. But she didn't. She made him let her look close at him, and then she gave him a push that made him fall down; and when the bell rang and we went in the teacher told him that he might remain in at recesses and a half an hour after school every night till the red stuff had wore off. We all looked around at him and grinned. But he wasn't grinning.

We all tore out for home to get our slays and go down to the hill because the freeze was bound to make it slick, and Whitey who has got a coaster which is a long low slay with pointy runners went down first, and he went down like he was dropping out of the sky, and acrosst the pond like he was shot out of a cannon, but instead of running up the railroad embankment the pointy ends of his runners stuck into the bank and the slay stold where it was and Whitey went sliding up the frozen embankment on his face. Then we all went sliding and some of us went way over the railroad, and when we got to Whitey he was a sight. He was holding his handkerchief to his face and said he would like to go up to my house, to have my mother fix him up, so he did and she did, with cotton and plaster, and then he came down and slid some more. I asted him why he didn't go home, and he said his folks would tell him he was a sissie if he done that. And Feeble said anyone that knowed him wouldn't call him a sissie, and he said "Thank you," and they both looked so funny at each other I bet he sends her a valentine.

Hoover Visitors Tramp On Each Other's Heels as They Seek Appointments

President-Elect Good Listener, They All Find After Interviews; Appears Interested at All Times, but Says Little

WASHINGTON, Jan. 10—Herbert Hoover is putting in union hours listening to the volunteer cabinet-makers. His visitors fairly tread on each other's heels as they pass, endless chain fashion, in and out of his big suite at the Mayflower hotel.

He listens, occasionally asks a question, but for the most part permits his visitors to do the talking. If he has made any committments at all—save that concerning the retention of Andrew W. Mellon as secretary of the treasury—political Washington does not know of it, despite its ear-to-the-keyhole attitude.

The stock question asked all visitors as they emerge from the president-elect's office, which is buried deep in the centre of his 12-room lay-out, is: "And what did he say?" Invariably the reply is: "Well, he appeared interested, and he listened."

He's Had Example

As a listener and as one who can keep his own counsel, Mr. Hoover is proving daily that he hasn't been sitting at the foot of Mr. Coolidge's cabinet table for five years for nothing.

The reticence of the president-elect concerning his cabinet appointments has given rise to many rumors, and it is giving a good deal of left-handed courage to those who are backing various candidates for jobs. They apparently feel that so long as there is reticence there is hope.

There are rumors that Mr. Hoover already has made up his mind concerning his official family, and that he is merely going through the ceremony of listening to this endless stream of recommendations merely out of politeness and a sense of political duty. There are other rumors that he will announce his entire cabinet before leaving for Florida next week; there are still others that he won't even begin the actual consideration of a slate until he is safely away from the pulling and hauling of capital politicians.

South Makes Drive

The truth probably lies somewhere between. Undoubtedly, the president-elect has settled upon some of the men he wants around his cabinet table for the next four years. But he doesn't *choose yet to make the information* public. There is still plenty of time. It is seven weeks yet before inauguration, and to announce half a cabinet would only increase the pressure upon him for the remaining places.

The south, militantly aggressive in its new-found Republicanism, is conducting an energetic drive for cabinet representation. Kentucky Republicans are working in daily relays, presenting the name of Mrs. Alvin T. Hert, vice chairman of the national committee, who had titular charge of the feminine end of the Hoover campaign. Virginia Republicans have advanced the name of C. Bascom Slemp, former secretary to President Coolidge, and credited with being the "master mind" of the Hoover campaign in the south.

There are few in Washington who seriously believe that Mrs. Hert stands any chance of a cabinet appointment, despite the great drive in her behalf, or that, in fact, there will be any woman in the cabinet. Mrs. Hert may be given an appointment in the Hoover administration, if she wants it, but the betting is that it will not be of cabinet rank.

Another Listener Day

Slemp would like to be in the cabinet. His resignation as secretary to President Coolidge after the 1924 campaign was attributed to his unwillingness to continue in the administration without promotion in recognition of his services in 1924.

North Carolina, which also went Republican, has a candidate for whom really sincere and high hopes are held. He is Stuart W. Cramer, a cotton manufacturer of Cramerton, N. C., independently wealthy, possessed of a distinguished business and administrative record, and an important cog in the machinery of the Hoover victory in the old north state.

Today was just another day of listening for the president-elect. On his engagement list for the eight hour work-day were Senator Gillet, Republican of Massachusetts; Senator Vandeburg, *Republican of Michigan*; C. Bascom Slemp, F. C. Davila, Porto Rican commissioner; Budget Director Herbert M. Lord; Representative French, Republican of Idaho; Representative Hawley, *Republican of Oregon*; Representative Davenport, Republican of New York; Representative Treadway, Republican of Massachusetts; Senator Thomas, Democrat *of Oklahoma; with still others to come.*

Arthur Ford, minister of the First spiritualist church, says he received and decoded the secret message of the late Harry Houdini to his wife from the world of spirits Officials of the magazine, a scientific publication, pointed out that the message in code had been published in a book, "Harry Houdini, His Life Story" by Harry Kellogg and that since its publication someone may have been successful in decoding the message

Seriously Ill

Joseph Dunninger, head of the psychical research committee of the magazine, expressed the opinion that a third person, possibly the nurse in the sickroom in which Houdini was confined, may have overheard the message both in code and decode when Houdini and his wife discussed it shortly before the magician's death Mrs. Houdini is now seriously ill and has at times been delirious and she may have revealed the message her self Dunninger said Mrs Houdini herself is reported today to have grown skeptical of the message received by Ford

Officials of the magazine said Mrs Houdini claimed to have withdrawn her $10,000 award several weeks ago without notifying the magazine The magazine however, will continue its $21,000 offer for true spiritualism Ford has expressed no intention of claiming any of the prizes

Performs Feats

Dunninger claimed any good magician could produce messages mysteriously and for the benefit of the press proceeded to do so He read the message that a girl reporter had written on her own notebook paper and sealed in an envelope without seeing or touching the envelope which was held by another girl reporter He produced a message on one of two cards which had been signed on either side by reporters to insure that they were blank and so that they could be recognized afterwards The cards were tied together without Dunninger touching them and when untied resealed a message in lead pencil

Houdini before his death promised to reveal a code message to his wife from the spirit world if possible The message consisted of ten words each standing for a letter which when decoded produced the word Believe

100 STOCKS JUMPED 50 PER CENT, CLAIM

Say Current Earnings and Income Yields Play Little Part in Advance

NEW YORK, Jan. 10—A compilation of stock values just completed by Frazier Jelke and Co. shows that in the whirlwind markets of 1928 a list of 100 representative industrial stocks jumped in value from 22 billion dollars to 33 billions, nearly 50 per cent.

Two very interesting facts are brought out in this remarkable comparison; first, that current earnings and present income yields played little part in the advance, there being no such sensational expansion in the business and net income of the corporations under review.

Second, that the leaf was taken by new and in many cases unproven stocks, which flashed through the speculative skies like meteors, though still in the speculative class, they have the most powerful financial backing, and big things are promised for stocks which have jumped somewhat into the 200-and-300 class almost overnight.

The motor, mercantile, utility and electrical manufacturing stocks were great favorites during the year, but in many cases they had their big guns in 1927, and had little ammunition left for a strong market display in 1928. The rails were laggards and the steel stocks stood on their reputation won as the fighting workers of the forward movements of other years on the big board.

People may forgive you, but afterward they are always on their guard.

Nearly Mad With Rheumatic Pains!

"Nearly every day, especially in damp weather, I suffered terribly from shooting pains and sharp twinges in my arms and legs. Nothing gave me any relief and at times I thought I would go mad. When I tried 'St. Jacob's Oil' it was with no hope at all. The very first application brought relief and I have had perfect comfort since."

Good old "St. Jacob's Oil" certainly does relieve the pains and aches of Rheumatism, Sciatica, Neuritis, Lumbago and Neuralgia. This soothing, penetrating oil seems to reach right in through the pores and draw out all the pain and ache. And there is no burning of the skin. Get a small trial bottle of "St. Jacob's Oil" at your druggist and try it out on any pain, ache, sprain or swelling.—Adv.

"KONJOLA MADE NEW MAN OF ME" FARMER DECLARES

Veteran Resident of Green County Was Unable To Work—Relieved of Rheumatism.

MR. GEORGE SIMS

Day by day the records of the glorious achievements of Konjola, the new medicine, grow; a convincing case of Mr. George Sims, R. R. No. 2, Xenia, who said:

"Three years ago my stomach failed me completely. There was little that I could eat, and even that little caused indigestion. My kidneys and liver refused to function as they should. Poisons left in my system caused rheumatism, and finally I had to quit work.

"A friend, who came to call on me, urged me to try Konjola. I thought it was just another medicine, but he was so sure that I try this new compound that I decided to take his advice. Three weeks of Konjola made a new man of me. Today I can eat anything; all my rheumatic pains have vanished, and my kidneys and bowels are entirely normal. I am doing right now as much a day on the farm as I ever did. I tell everyone what this wonderful medicine did for me as I feel it my duty to let them know of the merits of Konjola."

Konjola is different than any other known remedy in this section. It contains 22 juices extracted from natural plants which invigorate the stomach, liver, kidneys and bowels to a more healthy action. The effect of this Konjola on the entire system brings amazing relief in cases of suffering that has been going on for years. At the same time, many weak and rundown systems have been restored to a new state of health thru this compound. Such a vast number of men and women in this city have told of their experience with this new medical compound, until now, Konjola is the most highly indorsed medicine that is known in this section.

Konjola is sold in Marion at Stump & Sams Pharmacy and by all the best druggists throughout this section.—Adv.

A THREE DAYS' COUGH IS YOUR DANGER SIGNAL

Coughs from colds may lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs creosote is recognized by high medical authorities as one of the greatest healing agencies for coughs from colds and bronchial irritations. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the inflamed membranes and stop the irritation, while the creosote goes on to the stomach, is absorbed into the blood, attacks the seat of the trouble and checks the growth of the germs.

Creomulsion is guaranteed satisfactory in the treatment of coughs from colds, bronchitis and minor forms of bronchial irritations, and is excellent for building up the system after colds or flu. Money refunded if not relieved after taking according to directions. Ask your druggist. (adv.)

BOOTH'S OPPONENTS WIN GREAT VICTORY

Resolution To Suggest General Retire Is Adopted Unanimously

SUNBURY-ON-THAMES, ENGLAND, Jan. 10—The faction in the Salvation Army opposing the continued leadership of Gen. Bramwell Booth won a sweeping victory in the high council meeting today.

The high council unanimously adopted a resolution to send a deputation to see the general and suggest that he retire. The fact that the resolution received unanimous consent caused a widespread sensation as it had previously been thought that the British members of the high council would contest the efforts to remove the general in order to prevent the possibility of encroachment by the American branch of the army.

The high council had planned to withhold publication of the resolution until the general received and considered it, but decided to permit its publication because the general's letter "was communicated to a London newspaper without the knowledge of the high council."

General Booth's letter, which was published by the London Daily Mail announced the appointment of a commission, headed by Commissioner E. J. Higgins, to take over his duties as supreme chief, until he recovers from his present illness.

PRINCE LOSES HOPE OF RULING GERMANY

Mother Reveals Feeling of Royal Family in Public Letter

(Copyright, 1929, by International News Service)

BERLIN, Jan. 10—Prince Wilhelm, aged 22, eldest son of the former crown prince of Germany, and logical pretender to the throne in the Reich and Prussia, seems definitely to have abandoned all hopes of ever restoring the Hohenzollern monarchy.

This, at least, is the interpretation placed today upon a remarkable letter of Crown Princess Cecile contributed to a series printed by the Berliner Lokal Anzeiger and entitled "What German Mothers Feel Around Christmas Time."

The two notable passages of this letter which, according to the opinion of many German and neutral readers, seem to bear out motherly approval of her son's "facing hard facts," run as follows:

Interested in Germany

"He—Prince Wilhelm—is a student of the law, takes great interest in the history of his fatherland and holds the view that a young man in these days should, with all his mortal gifts and power, render service to the community wherever he can make himself useful."

The Crown Princess concluded her letter by saying:

"You see, my life is filled with the duties of a mother and other tasks approaching me from without, so that no time is left for brooding or wailing over sad conditions. We all live in a period in which there have to be created values instrumental in aiding our country to march again at the head of European kultur."

Neutral readers argue that the boy's placing himself at the disposal of the community unconditionally and without specifying the range of his ambitions, is tantamount to his having given up definitely all hopes for a monarchist revival and eventual restitution of the Hohenzollern dynasty.

The second paragraph is interpreted as meaning that the crown princess and probably the entire family of the former heir to the kaiser's throne, have once and for all overcome the shock of the revolution and have settled down to "face the facts." That is, they have accepted the fact as irreparable that Germany has become a republic.

In the rest of the letter the crown princess says she ranks even with all other German mothers, who, apart from social duties, see their chief mission in thinking for and taking care of their families.

Incidentally, Germans read for the first time that she publicly talks of the former crown prince as her "mann," or husband. This is in striking contrast with the old court etiquette, under which members of the royal family addressed or referred to each other with the full title.

PENSACOLA, FLA., Jan. 10—The dirigible Los Angeles reported its position at 9:10 a. m., eastern standard time, as 54 miles east of Apalachicola, or approximately 54 miles from the tanker Patoka in St. Joseph's bay, in a wireless message received by U. S. naval station here.

This report followed a request asking the meteorologist of the Pensacola naval station for hourly weather reports "after mooring". The request urged the meteorologist to anticipate any wind shift in the vicinity of the Patoka, to which the dirigible expects to moor.

CHOOSE your family mortician as you would your very best friend; and on those high, sound qualities which mark most trustworthy friendship. Choose your family mortician as one to bring in like a member of your household, close to you and considerate of your every care when needed. That is the part and place the correctly constituted mortician occupies, and the intimacy of his service. That should guide your choice, for every reason involved. That is our advice and evidence of our attitude of service.

OPTIMISM PREVAILS IN HARDING CAMP

LOCALS WILL PLAY MANSFIELD FRIDAY

Coach Compton Tapers Off Week of Hard Practice with Light Workout Tonight; Murphymen Expect Hard Battle from Marion

BY KARL R. McELROY
Sports Editor, The Star

A SPIRIT of optimism has permeated the camp of Harding high's Red and Black basketeers as Coach Baldy Compton send s his charges through their hardest week of practice this season in preparation for the opening North Central Ohio league tilt at Mansfield Friday night.

The condition of the President's as the eve of the game approaches has sent stock in the team skyrocketing and local fans are looking forward to one of the greatest basketball battles of the season. Although the members of the team are looking on the situation in a bright manner, the spirit is far from one of overconfidence. Harding realizes that it has a though contest ahead and is out to win.

Although no change in the lineup is contemplated by Coach Compton, fans attending the game will find several changes made in the playing style of the team. This afternoon the locals will complete their training with a light workout

• • •

MANSFIELD STRONGEST

TAKING the paper strength of the two teams Mansfield has the advantage over Harding. In games lost both teams are even, Mansfield having been beaten by Sandusky and Harding by the Alumni At that point the comparison between the two quintets favors the Murphymen. Harding has played three games this year and Mansfield eight.

Canton McKinley was Mansfield's most notable victory. The runners up in last year's state championship matches were beaten 27 to 21 last week. Harding's two scholastic games were against more or less weak teams that failed to give Compton's men a true test of their strength

Over at Mansfield Harding is being boomed up as an exceptionally strong team while writers are attempting to point out that Murphy's team is far from being confident of victory. Here is what a Mansfield slinger of sport adjectives has to say about the game.

• • •

GILLIS "GOOD"

"COMPTON also has a well balanced team which is devoid of individual stars. He has two men who are already mentioned as all-league material. They are McAninch of football fame who plays a roving guard and Gillis a lanky center who gets himself plenty of points and who shoots and makes 'em from any part of the floor.

"These two are not the whole team, however. There are Roush, a forward, and Castner, a guard, both sweet passers and sharp shooters. These four are the real regulars. The fifth man on the Harding team has been a problem for Coach Compton.

"And it hasn't been because of lack of material. There are exactly four men fighting for that forward position They are Ruzzo, Wiltrout, Walker and Bailey, all good enough for the varsity.

• • •

"LOOK EVEN"

"THE teams appear very evenly matched for the contest Friday as far as the men and their playing are concerned. If there is an advantage at all it is in Mansfield's favor because of the home crowd and the floor to which they are accustomed.

"Many Mansfield fans now are dubious about this big game because of similar situations when the locals became overconfident and lost just because of that.

"The idea seems to be prevalent that as soon as the locals win a game or two they get cocky. This year the team appears to be anything but cocky.

"The squad is made up of such men as Schuster who has been caught blushing at himself and who is so modest he stutters of cool-headed Hilde whom praise and flowers and "raspberries" are as but one, of little Don Sharp who would sooner play basketball than partake of savory edibles, of Earl McMullon who has been through too many seasons to feel that any game is won before it has been played and of little Jerry King who is too green at the game to think himself it."

One of the greatest breaks for liberty is to have eight or ten chores and errands to do and suddenly determine not to do them.

Saints Drop Second Game To Aquinas Quintet, 26-14

PLAYERS WHO MAY GET INTO CONTEST

The probable starting lineups for the Harding-Mansfield basketball clash at Mansfield Friday night are as follows:

Harding	Pos.	Mansfield
House	RF	Kinz
Walker	LF	Bride
Gillis	C	Shuster
McAninch	RG	Sharp
Castner	LG	McMullen

GALION LAMBS DROP FAST CONTEST TO LOCAL QUINT, 46-39

Butlers Chalk Up Easy Win; Business College Girls Lose

GALION LAMBS basketball team after handing the Isaly Dairies, of Marion, a setback Tuesday night, dropped a fast 46 to 39 battle with Butler last night at the Y. M. C. A.

The game was exceptionally fast throughout and little time was wasted in getting the ball down the floor. Many long heaves were attempted by both teams and turnovers were numerous

The first quarter was even, both teams passing and playing a cautious floor game The score at the end of the first period was 8-7, Galion. The second quarter saw the locals take a commanding lead which they never lost during the rest of the game Butler scored 17 points in the second period while holding their opponents to eight, the half ending 24 to 10.

The third and final periods were repetitions of the second, the locals leading 36-29 at the three-quarter mark and holding the same seven point margin at the end.

Partridge led the winners with eight field goals and one foul Gillis and Cram gave him a good run with 12 and 10 points respectively. Johnson's defensive work was not so good but he showed a fine left jab about half-way through the third quarter Cram played a fine game at guard Campbell was high for the Lambs with six fielders McClintock rang the bell for five two-pointers.

The Marion Business college girl's team finished on the short end of a 23-22 score in their preliminary tussle with the Galion Merchants. Mautz was high for the losers with nine points while Meeker did most of the winners scoring, making 10 points The score was tied at the half, 15 all.

WESLEYAN WINS

DELAWARE, Jan. 10—Using its second team most of the time, Ohio Wesleyan university copped its ninth consecutive win of the season here last night, downing Dayton university 38 to 21. The Dayton squad played and under a dual handicap of having several players on the sick list and its coach down with the flu. The score at the half was 29 to 10.

Don't discuss people's ages in their presence, unless they want to.

SHARKEY BALKS ON DROP IN GUARANTEE

Conference with Garden Officials Ends with Jack Threatening To Call Off Bout with Stribling; Wants $100,000 for Match in South

NEW YORK, Jan. 10—Uncertainty over the incubating heavyweight match between Jack Sharkey and Young Stribling at Miami Beach on Feb. 27 was heightened today by Sharkey's refusal to accept a cut in the $100,000 guarantee offered by Tex Rickard a few weeks before the promoter's death.

Sharkey came down from Boston yesterday to attend the funeral. Neither Johnny Buckley, his manager, nor his legal representative accompanied him He went into conference with William F. Carey, vice president of the Madison Square Garden Corp., and Col. John S. Hammond, general manager of the Garden

Sharkey emerged from the conference in a temper. To friends he confided that he had been asked to accept a cut in the guarantee offered by Rickard.

Sharkey indicated that he thought this question should not have been put to him with Rickard's body lying downstairs, and that he told the Garden moguls he would send his attorney to talk to them.

Rickard came to some sort of an agreement with Sharkey before he left for Miami on Dec. 26 He announced in Florida that Sharkey had accepted terms. It was a commonly accepted story that the Boston heavyweight had been guaranteed $100,000.

There now seems to be a doubt as to whether Rickard had put his offer in contract form before he died Boxers and managers were accustomed to accepting Rickard's word as his bond.

If no contracts exist or only one man is signed, the match is not likely to be completed now. It is only natural that the Garden corporation, if it assumes complete responsibility, would reduce the heavy guarantees, now that Rickard's magic touch will be missing.

Sharkey says he isn't anxious to fight Stribling on southern soil, and won't do it unless the price be and Rickard agreed on is paid.

STATE CONFERENCE SEASONS TO OPEN

35 Ohio Teams Will See Action Last Three Days

COLUMBUS, Jan 10—Thirty-five Ohio college basketball squads will swing into action throughout the state the last three days of this week, officially ringing up the championship curtain in the three Ohio conference groups A few conference games already have been played, but not until tonight, tomorrow and Saturday nights will the majority of Ohio college cagers battle conference member teams.

Two of the games are on tap for tonight at Athens and Findlay Marietta will furnish Ohio Northern plenty of competition Although the O. N. squad had the more impressive pre season record, Marietta figures to give a real account of itself—and more than likely will be on the long end of the score Defiance looks too good for Findlay in the Northwestern conference squabble.

Ohio conference foes will be at it tomorrow night. Ohio Northern will take on Western Reserve at Cleveland, Mt. Union will drop over to Akron; Otterbein is to tangle with Heidelberg at Tiffin; and Capital will go out of the conference to meet Antioch at Yellow Springs Bluffton and Toledo will have it out at Toledo in a Northwestern conference game.

Contests in all three conferences groups are on schedule for Saturday night. In the Buckeye A. A., Cincinnati will meet Miami at Oxford; and Ohio university will play Ohio Wesleyan at Delaware Cincinnati and Miami are figured to be an even bet, but Wesleyan undoubtedly will swamp Ohio Northern.

Among the Ohio conference contests will be Wooster at Case; Ohio Northern at Baldwin-Wallace; Kenyon at Marietta and Akron at Western Reserve. Teams which will meet non-conference foes will be Defiance, entertaining Kent State Normal; John Carroll, playing Canisius at Buffalo, Dayton taking it easy with Bliss College; and Bluffton mixing with Wilberforce.

JACK TO ANNOUNCE FIGHT PLANS TODAY

Dempsey Will Tell Writers Yes or No on Comeback Question

BY DAVIS J. WALSH

NEW YORK, Jan 10—Well into the afternoon hours of this day, Jack Dempsey is scheduled to issue his famous "I will" or "I won't" statement concerning the matter of his return to boxing In brief, he has promised to give his answer to the question that has beset and confounded all boxing since Rickard's untimely death and the funny thing about this is that, unless I have been misinformed, Dempsey didn't know the answer himself last night.

In any case, he seemed unable to make a decision in talking the matter over with the man who is to issue his statement for him The natural query is, why issue a statment at all unless he knows what he is talking about When in doubt, say nothing, is a good rule for all men who find themselves in a tight spot and it is admitted that Dempsey's position is not without some discomfort.

But he seems obsessed with the idea that he must orate at this time and so he may say "yes" and he may say "no" and, for all anyone knows, he may succeed in saying neither, which would be passing smart under the circumstances.

It appears to be an established fact in quite a few minds that Dempsey's come back ended the morning Rickard died but, as to that, there are a dozen different guesses covering the general situation Mine happens to be that, if Dempsey announces a permanent retirement policy, he will be making a real mistake. There is an old, old chestnut having to do with the experience of crossing a bridge only when you come to it and I should say that it covers this case like mortgage.

What one frequently uses wealth for is to run away from conditions that bore him, and from others that do the same thing

M'PHAIL SCORES 10 POINTS FOR VICTORS

Marion Shows Improved Form in Fray at Columbus, but Lacks Offensive Power To Overcome Lead of Winning Aggregation

ALTHOUGH showing decided improvement in their second clash with Columbus Aquinas in the capital city last night, St. Mary's high school cagers of Marion lacked the scoring punch to put over a victory losing 26 to 16

In a game here earlier in the season, the Aquinas quintet chalked up a 25 to 9 victory over the locals. Last night's encounter found Marion playing a good defensive game but missing many of its shots. Friday the Saints will return to Columbus where they will tackle the Sacred Heart quintet on the Aquinas gym. In the opening game the Marionites upset the Hearts by a 31 to 20 score

McPhail was the big noise in Marion's defeat last night. He led the Aquinas scoring machine with a total of 10 points from two buckets and six fouls He also played a wonderful floor game that cut the locals out of many needed counters.

St. Mary's lost the lead after 30 seconds of play and were never able to head the Columbus five. At the end of the first half Marion had a small end of the 8 to 2 score. Saints outscored their opponents in the second period the half ending 13 to 8. The third period found Aquinas on a great scoring spree that tallied 14 points while the locals garnered five. Columbus failed to count in the last period while Marion was given a lone foul goal.

Ballenger and Gunder showed the best form for the locals. Gunder scored six points to head the scoring. Mary's score sheet while Burke was a close second with five points.

Marion received a large number of shots at the basket but was unable to cash in with. This put a decided crimp in the Marion offense giving Aquinas the game victory.

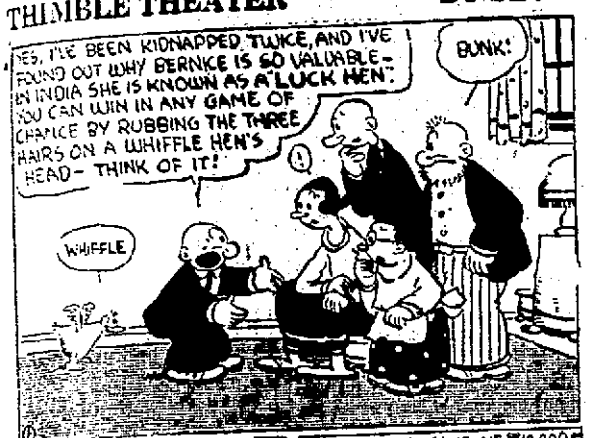
THIMBLE THEATER — BY SEGAR



YES, I'VE BEEN KIDNAPPED TWICE, AND I'VE FOUND OUT WHY BERNICE IS SO VALUABLE— IN INDIA SHE IS KNOWN AS A "LUCK HEN": YOU CAN WIN IN ANY GAME OF CHANCE BY RUBBING THE THREE HAIRS ON A WHIFFLE HEN'S HEAD— THINK OF IT!
BUNK!
WHIFFLE

THIS GAMBLER, MR. FADEWELL, WHO HELD ME A PRISONER IN HIS APARTMENT, HAS A GAMBLING RESORT ON DICE ISLAND— LET'S BUY A SMALL SHIP AND GO TO THIS RESORT AND WIN SOME BIG MONEY. ARE YOU WITH ME HAM?
YEAH— BUT HOW CAN WE BUY A SHIP?
MR. FADEWELL GAVE ME $10,000 TO SAIL WITH HIM TO HIS ISLAND AS SOON AS HIS RHEUMATISM GETS BETTER—I ESCAPED AND I'VE GOT THE MONEY. WE'LL GO BUY A BOAT RIGHT NOW

I'VE GOT AN OLD TUB I'LL SELL YOU FOR SIX THOUSAND. I USE HER FOR FISHIN' MOSTLY—SEAWORTHY TOO—IF YOU KNOW HOW TO HANDLE HER—DICE ISLAND? YOU'VE STUCK ME THERE. IT'S A SMALL SPECK OF DIRT SOMEWHERE OFF THE AFRICAN COAST—THAT'S ALL I KNOW—EXCEPTIN' I'VE HEARD SOME QUEER TALES ABOUT IT
WHIFFLE

BRINGING UP FATHER — BY GEORGE McMANUS

THANK GOODNESS THAT THIRD RATE CAKE-EATER THAT WUZ CALLIN' ON DAUGHTER IS LEAVIN'.
HUH! HE LEFT HIS CANE—THAT'S A FINE LOOKIN' STICK FER A GUY TO CARRY.
WHO ARE YOU MAD AT DADDY DEAR?
THAT GUY THAT WUZ JUST HERE—LOOK AT THE CANE HE LEFT ON THE PIANO—THE BIG CALF.
FATHER—YOU HAD BETTER PUT THAT BACK—IT'S MOTHER'S CIGARETTE HOLDER.

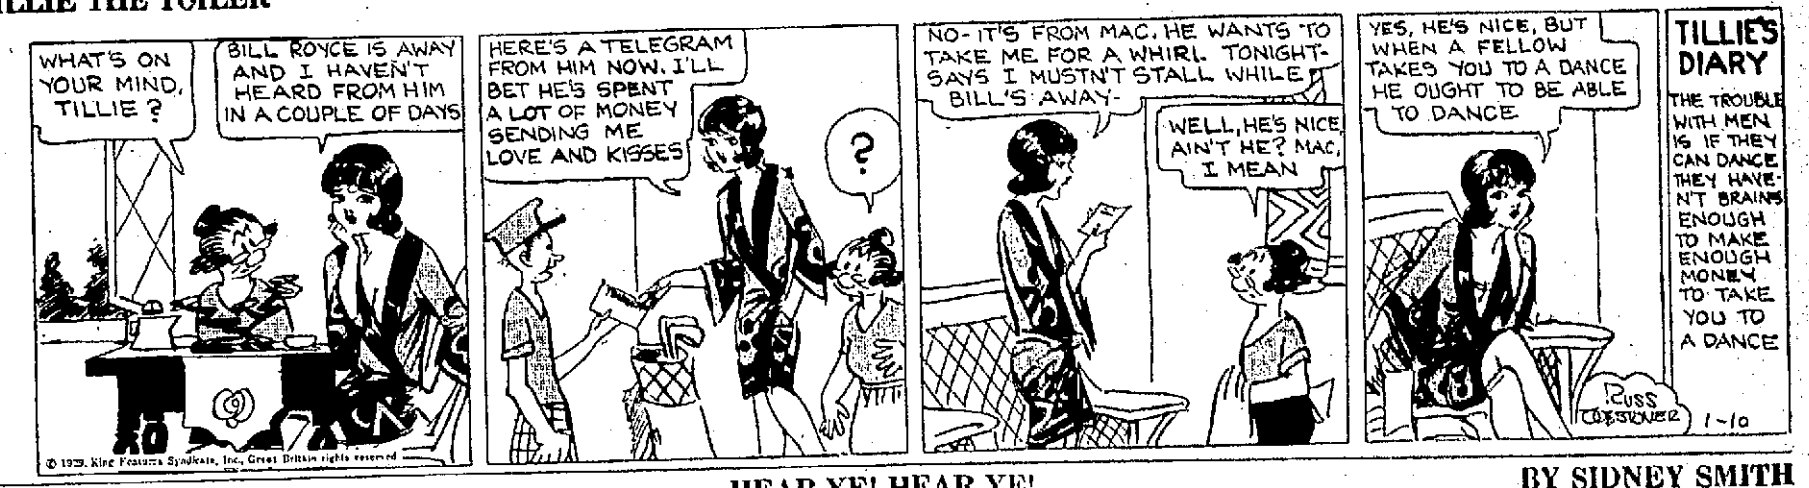
TILLIE THE TOILER — WHERE MAC FALLS SHORT — BY RUSS WESTOVER



WHAT'S ON YOUR MIND, TILLIE?
BILL ROYCE IS AWAY AND I HAVEN'T HEARD FROM HIM IN A COUPLE OF DAYS
HERE'S A TELEGRAM FROM HIM NOW. I'LL BET HE'S SPENT A LOT OF MONEY SENDING ME LOVE AND KISSES
?
NO—IT'S FROM MAC. HE WANTS TO TAKE ME FOR A WHIRL TONIGHT—SAYS I MUSTN'T STALL WHILE BILL'S AWAY—
WELL, HE'S NICE, AIN'T HE? MAC, I MEAN
YES, HE'S NICE, BUT WHEN A FELLOW TAKES YOU TO A DANCE HE OUGHT TO BE ABLE TO DANCE
TILLIE'S DIARY
THE TROUBLE WITH MEN IS IF THEY CAN DANCE THEY HAVE-N'T BRAINS ENOUGH TO MAKE ENOUGH MONEY TO TAKE YOU TO A DANCE

THE GUMPS — HEAR YE! HEAR YE! — BY SIDNEY SMITH

THIS MORNING TOM CARR FACES THE ORDEAL OF HIS LIFE— WITH STERN AND UNBENDING JUDGE BLAST ON THE BENCH— AND ARRAYED AGAINST HIM THE CRUEL AND STONE LIKE VISAGE OF PROSECUTING ATTORNEY TRI HARD— AND THE PUBLIC OPINION OF HIS OLD FRIENDS AND NEIGHBORS—
HEAR YE! HEAR YE! HEAR YE! THE COURT IS NOW CONVENED—
THE STATE VERSUS TOM CARR
AS THE CURIOUS THRONG SURGES INTO THE COURT ROOM FOR WHAT TO THEM IS A HOLIDAY— TOM CARR— THE CENTRAL FIGURE— IS OBLIVIOUS TO THE CRUEL STARES— AS HIS EYE IS GLUED TOWARD THE DOOR— WATCHING— WATCHING— FOR A FACE THAT FAILS TO APPEAR—
I SHUDDER WHEN I THINK OF WHAT MARY ESCAPED— THE LAW CANNOT BE TOO SEVERE IN DEALING WITH SUCH CHARACTERS—
POOR TOM CARR— I CAN'T HELP BUT PITY HIM— HE LOOKS SO ALONE SITTING THERE— I CAN'T BELIEVE THAT HE TOOK THE MONEY—
GET A LOOK AT HIS ATTORNEY
THE GUILTY MUST SUFFER—
IMMEDIATELY AFTER THE OPENING OF THE TRIAL THE ATTORNEYS STARTED THE SELECTION OF THE JURY—
JUDGING FROM THE EARLY SPEED SHOWN— A COMPLETE JURY SHOULD BE IN THE DOCK BY TONIGHT—

POLLY AND HER PALS — PAW PLAYS SHERLOCK HOLMES — BY CLIFF STERRETT

WOULD YOU BELIEVE IT, MA?
NOT UNLESS I SEEN IT THERE, IN BLACK AN' WHITE, WITH MY OWN EYES!
GUESS WHAT, PAW! MARTIN MEEK, OF ALL PEOPLE, WALKED OUT OF HIS HOUSE, LAST TUESDAY, AN' AINT BEEN SEEN SINCE!
I'VE MET UP WITH A LOTTA MYSTERIES IN MY DAY, BUT THIS'N SUTTINLY TAKES THE CAKE!
WHADDYE MEAN, MYSTERY?
HIS DAUGHTER PLAYS THE UKELELE, HIS SON, THE SAXOPHONE, AN' HIS WIFE, THE "PONIES"!

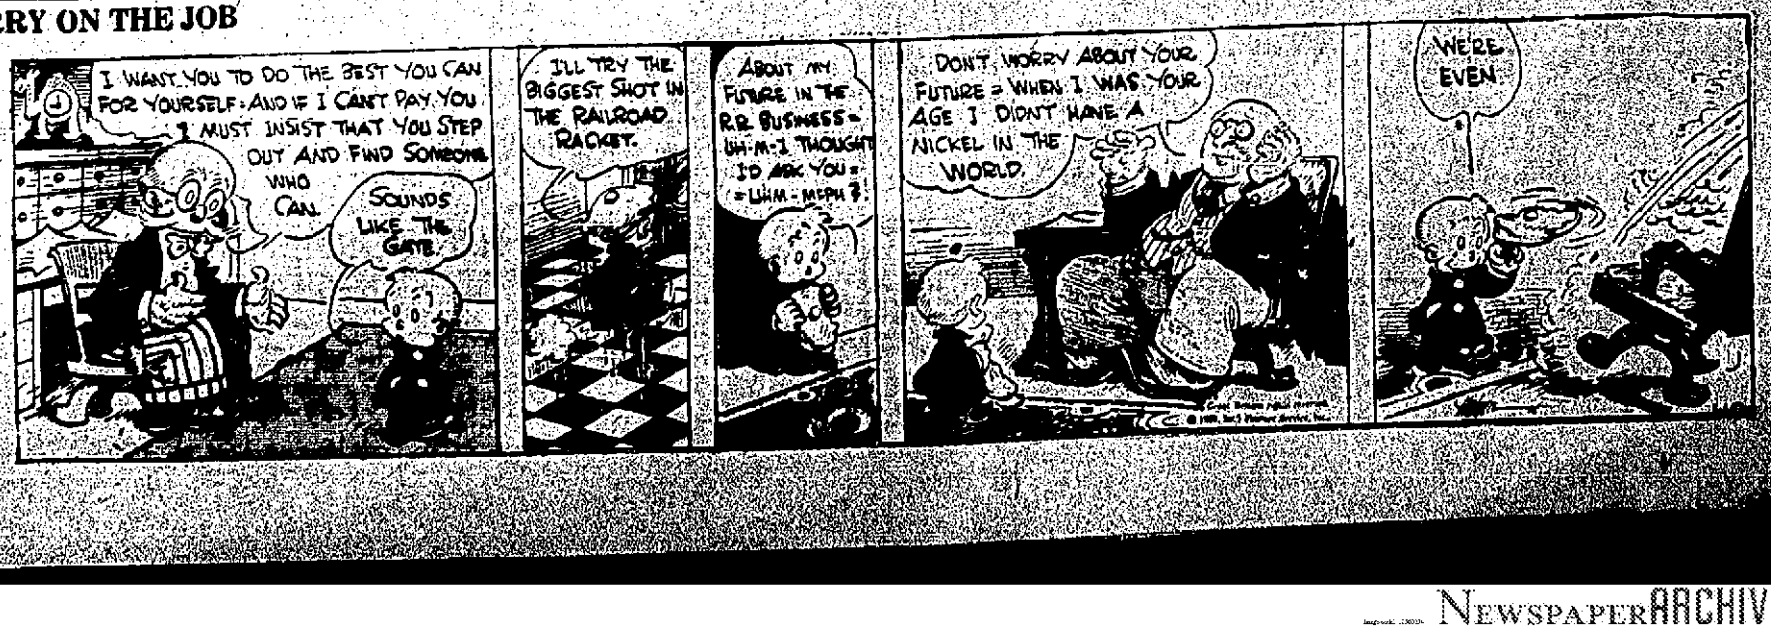
TOOTS AND CASPER — A PREMONITION — BY JIMMY MURPHY

IT'S AWFULLY SWEET OF YOU TO LET ME GO AWAY ON A VACATION, CASPER! I'M GOING TO BE SO LONESOME WITHOUT YOU DEAR!
FORGET IT, TOOTS! I DON'T WANT YOU TO THINK ABOUT ANYTHING EXCEPT HAVING A GOOD TIME!
GOODBYE, DARLING!
HAVE A NICE TIME, TOOTS, AND DON'T FORGET TO WRITE!
PULLMAN
I HATED TO SEE TOOTS LEAVE! I DON'T KNOW WHY, BUT AS THE TRAIN PULLED OUT THE THOUGHT STRUCK ME THAT IT MAY BE A LONG TIME BEFORE I EVER SEE HER AGAIN! THIS IS THE ONLY TIME I EVER FELT A STRANGE UNEASINESS ABOUT HER GOING AWAY!
WHY SHOULD CASPER FEEL UNEASY ABOUT HIS PRETTY YOUNG WIFE? IS IT A PREMONITION THAN SOMETHING MAY HAPPEN?
JIMMY MURPHY

JERRY ON THE JOB — BY HOBAN



I WANT YOU TO DO THE BEST YOU CAN FOR YOURSELF. AND IF I CAN'T PAY YOU I MUST INSIST THAT YOU STEP OUT AND FIND SOMEONE WHO CAN.
SOUNDS LIKE THE GATE
I'LL TRY THE BIGGEST SHOT IN THE RAILROAD RACKET.
ABOUT MY FUTURE IN THE R.R. BUSINESS— UH-M-I THOUGHT I'D ASK YOU— UHM-MEPH?

Higher Prices Scored By Speculative Favorites Of Market

STEEL AND MOTOR STOCKS TAKE LEAD

Radio, Victor and Montgomery Ward Holds Interest in Specialties

STUDEBAKER POPULAR

United States Steel Jumps to 165 with Prospect of Dividend

BY W. S. COUSINS
I. N. S. Financial Editor

New York, Jan 10—Higher prices were quoted today for most of the speculative favorites which have been making new high level in the last week or two. The best prices of the day were made by the high-priced specialties at the opening of trading, Radio, Victor and Montgomery Ward leading the procession. Rails and motor stocks jumped to new highs, and the electrical manufacturing stocks were again in demand.

Most of the motor stocks were not displaying very much enthusiasm over the dazzling display of cars at the show where competition in the whole market is predicted for 1929. Already prices are being shaded with the passing of the old models. Motor stocks and the substantial new stock, other issues were pushed to the front, with Studebaker again making the most spectacular gain in the place of leadership it held in the autumn. Rails also showed good quantity and a fractional rise from their last week's high price. Willys-Overland was well bought at 34 and there came out in big blocks at 60 before the buying campaign for Central Aguirre Sugar was taken up vigorously, and the stock topped last year's best record when it rose to 49. Powerful interests in the central west are buying the stock with a view to merging the company with other manufacturers there. United States Steel also "went along to 165 as the street" discussed the prospect of a special dividend from the proceeds of the big tax refund of $26,000,000 paid over by Uncle Sam.

TODAY'S REVIEW OF YESTERDAY'S GRAIN

CHICAGO, Jan. 10—Bull sentiment in corn, which has been marking time for the past few weeks, resolved itself into action yesterday and prices bulged sharply. All of the futures went to new highs on the crop

Trade was broad Commission houses and locals bought, uncovering stop loss buying orders of shorts and prices advanced rapidly. Sellers of daily and weekly privileges were forced to protect themselves, with offerings light

Wheat, though not as active as corn, was also strong. A sharp upturn at Liverpool, strength in corn and improved export demand were factors in the advance.

Corn prices registered net advances of 2⅞@3c for the day. Wheat was 1½@1¾c higher; oats were ⅞@1⅛c up and rye was 1¼@1½c higher

Following the sharp advance in May corn at Buenos Aires late Tuesday, local holders of long corn were indisposed to sell any at the opening. Their views were strengthened by active purchases of local bulls, and an favorable weather over the belt. Shorts became uneasy and started a general covering movement.

Firm cash markets here and in the Southwest were also factors. Omaha reported a continued good demand at prices above a Chicago parity. There were reports of further export demand at the seaboard, with sales of 200,000 bu reported, a sale here of 35,000 bu for export, and fairly large clearances, the total being 395,000 bu Tuesday.

Fears of an increase in the country offerings with advancing prices were ignored in the bullish enthusiasm of the day's trade. On the advance of 3c in the futures in the first hour bookings of 100,000 bu were reported, mainly from Iowa points. At the same time it was pointed out by local cash interests that further large bookings were being offered just above the market.

The further advance in futures prices brought in some of these bookings and by the close the total had reached over 300,000 bu. It is significant to note in connection with the bad weather that advices from Kansas City spoke of large supplies of corn in country elevators which could result in liberal offerings despite the impassability of roads.

Bullish enthusiasm was even more pronounced at the close, but many of those who favor the constructive side pointed out that the normal January movement has not yet been felt and any further advance will probably increase the offerings proportionately.

Liverpool wheat closed 1½c higher. Cables said that the market had acted oversold and shorts were covering. The principal factor was again reported to be the failure of Canadian and Argentine interests to offer much wheat at the level of prices. Buenos Aires was also firm.

Winnipeg followed Liverpool, closing 1½@1⅝c higher. The Canadian market reported a fair export business done overnight, but little local business was being transacted. Sales at the seaboard yesterday were liberal, with the total estimated between 1,000,000 and 1,700,000 bu.

In the cash market wheat was nominally 1c higher; corn was ½@2c higher; oats ½@1c up; rye dull; and barley 1c higher. Cash sales reported: Wheat, 31; corn, 217; oats, 74; rye none; barley, 6.

Representatives Approve Proposed Memorial Trail

RENTON, Jan. 10— Resolution approving the projected Ohio Revolutionary Memorial Trail between Cincinnati, Toledo and Port Clinton with Renton as the pivotal point, was passed last night at a meeting of representatives from Renton, Upper Sandusky, Findlay, and Logan, Champaign and Clark counties in the Chamber of Commerce rooms.

Copies of the resolution will be forwarded representatives from the seven counties along the route in the Ohio General assembly now in session, urging them to support the proposed $500,000 appropriation for the marking of the historic, old Tri-State Revolutionary trail through Ohio.

The financial measure is expected to be considered in committee soon and the bill presented probably during the coming week. Representatives from various sections along the trail together with the sponsors of the memorial highway movement will attend the committee hearings.

Two other states, Kentucky and Indiana are also taking similar action toward memorializing the tri-state trail coming within their domains, that all might be marked for pedestrian services proposed for the week of Aug 8, 1930.

Would Mark Road

The proposed memorial highway, to be marked and its historic spots and scenic beauties designated, as a memorial to those pioneers who wrested Ohio from the Indians and other enemies, would start at Cincinnati and come north through Springfield, Urbana, and Renton. At Renton the trail branches one going to Toledo through Findlay and Bowling Green and the other to Port Clinton, scene of Perry's historic victory, through Upper Sandusky, Tiffin and Fremont.

Concerted action of every community along the trail is now sought in the movement and to prod all upon legislators to effect state aid. Aside from the historic, educational and memorial phase, the completion of the trails movement would effect heavy tourist travel.
